HARNESS FOR COURIERS AP 310

NEW

COMPONENTS OF HARNESS

Due to its ergonomic design, the AP310 courier harness ensures even load distribution when carrying heavy packages. It significantly relieves the shoulders and the spine, making daily work easier for couriers, warehouse workers, or all those who carry heavy loads on a daily basis. The foldable carrying shelf is an additional point of support for the package being carried, which makes its grip more secure and, if necessary, allows to reach for a handle or a key pocket with a free hand. The harness does not hamper movement, and the adjustable carrying strap system allows to suit any body shape.

MATERIAL: Polyester - tape, ABS - shelf

DIMENSIONS: 160x82 mm - shelf

WEIGHT: 670 g

MAX CAPACITY: 30 kg
